Greater Noida, Uttar Pradesh, India

Objective

Computer Science undergraduate and aspiring Full-Stack Developer with hands-on experience building end-to-end web applications using React.js, Node.js, Express.js, and MongoDB. Strong proficiency in designing scalable RESTful APIs, integrating payment gateways, managing client-side state with Redux, and applying core computer science fundamentals in Data Structures and Algorithms.

Technical Skills

- **Full-Stack Frontend:** React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, REST API Integration
- **Backend APIs:** Node.js, Express.js, REST API Architecture, JWT Authentication, Role-Based Access Control, Webhook Integration
- **Languages Databases:** JavaScript, Python, Java, SQL, MySQL, PostgreSQL, MongoDB, Mongoose ODM
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS)
- **Tools Workflow:** Git, GitHub, Postman, VS Code, npm, Vite, Linux/Bash

Projects

Forever E-Commerce – Full-Stack E-Commerce Platform GitHub
React.js, Node.js, Express.js, MongoDB, JWT, Stripe, Razorpay

- Built a full-stack e-commerce platform with separate customer storefront and admin dashboard.
- Implemented secure authentication using JWT and bcrypt, with role-based access control.
- Developed REST APIs for product management, cart operations, order processing, and checkout.
- Integrated Stripe, Razorpay, and Cash on Delivery, with product image uploads via Supabase Storage.

ERP Management System – Smart India Hackathon (Team Lead) GitHub
React.js, Node.js, Express.js, MongoDB, REST APIs

- Led the end-to-end development of an enterprise ERP web application, connecting an intuitive React.js frontend to a scalable Node.js/Express backend.
- Architected database schemas in MongoDB for multi-resource CRUD operations, tracking inventories, users, and session states in real time.
- Implemented secure protected routes, middleware handlers, and comprehensive API documentation using Postman and Git version control workflows.

Experience

Full Stack Web Development Trainee 2024
4-Month Web Development Intensive Program *Remote*

- Completed an end-to-end curriculum covering modern frontend libraries (React), backend architecture (Node.js, Express.js), and database management.
- Designed, built, and tested full-stack applications, handling both client-side UI rendering and server-side API integration.

Education

Maharishi University of Information Technology Sep 2023 – Aug 2027
B.Tech in Computer Science – Data Science, AI & ML Specialization *Uttar Pradesh, India*

- Current CGPA: 8.27 / 10.0
- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Computer Networks, Operating Systems

upGrad.com (Online Specialization) Sep 2023 – Aug 2027
B.Tech in Computer & Data Science *Remote*

- Earned certifications across core CS subjects including Fundamentals of Programming, Data Structures & Algorithms, Python, and Software Architecture.

Certifications & Training

- Full Stack Web Development (4 Months) – React.js, Node.js, Express.js, MongoDB, REST APIs
- Python 3.4.3 Training – Advanced Python Programming & Scripting
- BCG Data Science Job Simulation – Predictive Modeling & Data Analysis

Achievements & Leadership

- **Competitive Programming:** 300+ problems solved on LeetCode, 140+ on GeeksforGeeks – strong proficiency in core Data Structures and Algorithms.
- **Academic Excellence:** Maintained an 8.11 CGPA while pursuing specialized coursework in Computer Science and Systems Engineering.
- **Hackathon Leadership:** Led a software development team in the Smart India Hackathon (SIH) internal round, delivering a fully integrated full-stack ERP system.
